

Notice of Intention to Circulate Petition

Notice is hereby given of the intention of the persons whose names appear hereon of their intention to circulate the petition within the Yucaipa Calimesa Joint Unified School District for the purpose of ensuring that American children born to American citizens and legal residents of the United States have access to the best education possible. A statement of the reasons for the proposed action as contemplated in the petition is as follows:

We as parents strive to provide our children with the best of everything as we work to ensure that their future is brighter and more prosperous than ours. This includes providing them with the best education possible so that they can pursue the American Dream.

For generations, our elected officials have allowed millions of illegal aliens to flood our nation and our schools siphoning away limited and finite resources from our American children -- effectively robbing them of their American birthright.

The State of California spends billions of dollars educating illegal aliens and the children of illegal aliens, on entitlement benefits, and healthcare services. Billions more is spent on the prosecution and incarceration of criminal aliens. Billions are lost through remittances and tax fraud perpetrated by illegal aliens who have stolen the identities of American citizens.

In *Plyler v Doe* (1982), the Supreme Court conjured up an imaginary doctrine that rewarded and encouraged continued illegal immigration by compelling the American taxpayer to sacrifice and undermine the quality of their own child's education in the name of educating illegal aliens.

It furthered argued that in order to deny illegal aliens a free public education a state must show "some substantial state interest."

Our schools are lagging the nation in terms of per pupil spending and student performance. Our infrastructure has been neglected and is crumbling.

State leaders and officials would rather raise the costs of tuition for American students attending our state college system while simultaneously giving illegal aliens in-state tuition

rates and millions in financial aid. Governor Jerry Brown would rather raise \$5 billion per year in additional gas and car registration taxes on working class Californian families to pay for infrastructure repairs even though we spend more than that each year just on the education of illegal aliens and their children.

And now the state risks losing hundreds of millions of dollars in federal funds by becoming a sanctuary state. Because of Proposition 98, this will have a direct impact on our education system and per pupil spending.

We can no longer subjugate the education and future of our children. We will no longer take care of those who have broken our laws and seek to prosper at the expense of our children.

It is time to put American Children First.

PROPOSONENTS:

Joseph Turner
American Children First
4733 Torrance Blvd., #712
